

Working Together in 2027

Better Work has a global model that provides a mechanism for the private sector to contribute to the overall costs of the program. The model was developed through a consultative process with buyer partners, factory representatives and other key stakeholders at the global and national levels. The private sector contribution represents a portion of the costs of delivering the programme, with the remainder subsidized by national contributors and international government donors.

Buyer Partners

Buyer Partners make a **single "all-inclusive" annual partnership contribution** comprised of **two components**.

Component 1: Buyer Partners' contribution is based on their total consolidated apparel revenue.

2027	
Apparel Revenue	**Charge (USD)**
A: < 1bn	15,600
B: 1 - 4bn	27,300
C: 4 - 10bn	53,900
D: 10 - 15bn	82,700
E: > 15bn	154,900

Component 2: Buyers Partners' contribution is also based on the number of apparel factories in Better Work countries. This information serves as a proxy for the level of effort required to engage with the factories in the buyer's supply chain throughout those Better Work countries and the importance of that market to the company (the "market footprint" component).

2027	
No. of Factories	**Charge (USD)**
1: (1 - 25)	9,900
2: (26 - 50)	16,400
3: (51 - 100)	28,700
4: (101 - 200)	49,200
5: (201 - 250)	90,100
6: (>250)	106,500

Partner buyers may also choose to obtain factory data via API, in which case an additional contribution is made to the programme.

Buyer Participants

Contribution for Participants (USD) per factory report cycle

Subscription	**Price**
Above 60 factories	$ 1,430
41-60 factories	$ 1,560
21-40 factories	$ 1,700
10-20 factories	$ 1,830
Fewer than 10 factories	$ 1,950
